

SolarTech Power Solutions

Slovenia PV Energy Storage 20kw Inverter

Overview

It includes a 20kW inverter, 40.96kWh HV lithium battery, and 36 × 590W bifacial solar modules, delivering up to 120kWh/day solar generation and seamless off-grid capability. What is a livoltek 20kW Energy Storage kit?

The Livoltek 20KW Energy Storage Kit is a cutting-edge energy storage system featuring a 20kWh Livoltek lithium battery for efficient storage of excess solar production. Its inverter boasts 100% three-phase unbalanced output capability, adapting seamlessly to diverse load demands.

How reliable is the livoltek Solar System?

The system's reliability is backed by an impressive 10-year warranty on both the inverter and batteries. The Livoltek system accelerates solar installation amortization by prioritizing consumption electricity generated from PV array, utilize electricity from battery for peak shaving at night.

How does the livoltek solar system accelerate solar installation amortization?

The Livoltek system accelerates solar installation amortization by prioritizing consumption electricity generated from PV array, utilize electricity from battery for peak shaving at night. While it requires a grid connection for backup during low production periods or when battery storage is depleted, the grid reliance is minimized.
