# Slovenia solar energy storage policy subsidies

## Overview

---

The subsidy can cover up to 45% of eligible investment costs, or a maximum of EUR 225 per kWh of battery storage capacity. Eligible applicants are companies, sole proprietors, and cooperatives. How much will Slovenia spend on solar energy projects?

Data Protection Policy Slovenia has set aside €16 million (\$16.7 million) to support solar energy communities, requiring projects to include at least 100 kW of PV capacity, with or without storage. The program will run until 2027.

What is the Slovenian energy policy?

The purpose of the measure is to accelerate the deployment of investments in renewable energy production and energy storage, with the aim to foster the transition to a net-zero economy. The Commission found that the Slovenian scheme is in line with the conditions set out in the Temporary Crisis and Transition Framework.

Will Slovenia subsidize new self-sufficient PV energy communities?

The Slovenian Ministry of Cohesion and Regional Development has launched a €16 million program to subsidize new self-sufficient PV energy communities. The government and Slovenia's EU Cohesion Policy Program are co-financing the initiative, the ministry said in a statement.

How much power does a photovoltaic system need in Slovenia?

The government and Slovenia's EU Cohesion Policy Program are co-financing the initiative, the ministry said in a statement. "The total nominal power of the installed photovoltaic modules must be at least 100 kW, with or without battery energy storage systems," the authorities said.

How to invest in the renewables sector in Slovenia?

Investment in the renewables sector has been dependent on the availability of financing mechanisms. The Slovenian Energy Agency is the competent

authority for tenders for the feed-in support scheme. Power plant operators, awarded by public tender, may choose between guaranteed purchase and operating premium.

What does EU state aid mean for Slovenia?

European commission. The European Commission (EC) on Friday approved, under EU state aid rules, a EUR-150-million (USD 161m) scheme in Slovenia that aims to support the expansion of renewable energy, heat and energy storage.
