Should I buy a solar inverter?

The price for such a system is quite high, as these inverters are usually more expensive. Also, you'll need more solar panels and a bigger battery to power your home for a few hours during a power outage. I recommend allowing power supply only for essential circuits in such situations, such as the refrigerator, a few lighting installations.

Where can I buy inverter at a discounted price?

Are hybrid solar inverters worth it?

Hybrid inverters can provide anti-islanding protection during a power outage, but also keep power flowing from your solar panels (and your battery, if you have one) into your home's circuits. The price for such a system is quite high, as these inverters are usually more expensive.

What is the maximum capacity of a solar inverter?

The maximum capacity of the inverter must be at least 75% of the capacity of the solar cell. In other words, the cell capacity can be up to 133% of the inverter capacity. For example, if you have a 6kw solar cell, the inverter must be able to manage a maximum of 6kw of energy and the simplest is to purchase a d 6kw inverter.
