

SolarTech Power Solutions

Solar Energy Storage System Factory

Overview

What is solar power storage?

Strictly speaking, solar power storage is not just a battery but a rechargeable solar battery. In case of strong solar radiation the generated solar energy exceeds the energy demand of the house. The excess energy is passed into the solar battery and charges it, like a battery.

Why do you need a solar energy storage system?

We are dedicated to developing and delivering affordable clean energy to every corner of the world, offering our customers worldwide the possibility of energy independence. Our solar energy storage system maximizes your solar power potential, reducing reliance on traditional energy sources.

How do solar energy storage systems work?

The first principle on which solar energy storage systems are built is that of temperature change in the material upon its heating or cooling. Matter experiences bulk heating, where the value of the stored energy is proportional to the specific heat capacity of the material used. This leads to a phenomenon referred to as sensible heating.

What are the different types of energy storage products?

The main products are energy storage products such as LiFePO₄ battery packs, commercial & industrial energy storage, residential energy storage, portable power station/solar generator, solar inverter, lift truck battery, RV/landscape bus/golf cart battery and other OEM/ODM battery in China.

Why should you choose a solar energy system?

This innovative system is designed to meet the growing demands for efficient, reliable, and sustainable energy solutions for your home. With its advanced features and robust build, it is the perfect choice for homeowners looking to optimize their energy consumption and reduce their carbon footprint.

What is included in a solar system?

※ The entire system includes 10kWh wall-mounted battery, 8kVa hybrid inverter, 425W solar panels, mounting brackets, and connection accessories ※ Provide remote guidance services and system design services according to your own needs ※ The whole system is simple and easy to install ※ 5 years warranty
