Solar energy storage DC home design

Overview

How much do solar panels cost in DC?

Residents can have solar panels installed at their home at no cost. We—DC Government—cover the cost for you to work with a local installer to design and install a solar panel system for your home. Solar panel systems can decrease your electricity costs by as much as \$500 per year. This program is called Solar for All and Solar Works DC.

What is Solarize DC?

Solarize DC is a community-based outreach initiative to bring solar power to District residents in their homes and businesses throughout the city. Many residents are interested in solar but do not know where to start.

Do solar panels save money in DC?

First and foremost, most people who go solar save money by doing so. With higher electricity rates in DC compared to many other areas throughout the country, solar panels can pay off even more quickly. While there's an initial cost to installing a solar system, you'll be eligible for several solar incentives in DC including:

What is sustainable DC?

The District's Sustainable DC initiative establishes goals and targets for responding to climate change. Additionally, the Clean Energy DC (CEDC) Omnibus Act of 2018, raised the percentage of solar energy carve out in the District from 5% to 10% by 2041.

What is a SolarEdge home battery?

At the heart of this offering is the SolarEdge Home Battery—a high-efficiency, DC-coupled solution engineered to maximize every watt produced by your solar panels. With an industry-leading 94.5% round-trip efficiency and the ability to handle DC oversizing up to 200%, this battery delivers superior

performance and flexibility in system design.

Why should you buy a solar system?

Flexible financing and low monthly lease options can help you secure the best price for your solar system. By installing solar panels, you can also reduce your reliance on traditional energy sources. Power your home with emissions-free, renewable energy directly from the sun.
