Solar inverter industry market capacity

Overview

The Solar PV Inverters Market size is estimated at USD 14.27 billion in 2025, and is expected to reach USD 19.89 billion by 2030, at a CAGR of 6.87% during the forecast period (2025-2030).

The Solar PV Inverters Market size is estimated at USD 14.27 billion in 2025, and is expected to reach USD 19.89 billion by 2030, at a CAGR of 6.87% during the forecast period (2025-2030).

The Solar Inverter market is anticipated to grow from USD 12,729.5 million in 2025 to USD 23,661.6 million by 2030 with a CAGR of 13.20% during 2025-2030. The solar inverter industry encompasses the production and sale of equipment for transforming direct current (DC) provided by solar panels into.

The Solar PV Inverters Market size is estimated at USD 14.27 billion in 2025, and is expected to reach USD 19.89 billion by 2030, at a CAGR of 6.87% during the forecast period (2025-2030). The market's expansion is underpinned by a move from simple DC-to-AC conversion toward smart, grid-forming.

Similarly, solar inverters have gained increased traction across the world due to the increasing use of solar power systems in areas like Europe, the U.S, and Japan that are backed by favourable policies. The cumulative installed Photovoltaic power generation at the end of 2022 was approximately.

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration of renewable energy resources will fuel the adoption of efficient systems. Photovoltaic inverters in the last decade have.

The market is driven by rapid advancements in the renewable energy sector and the ease of installation of string inverters. However, challenges such as high heat loss in large inverters and increased costs may hinder growth. Government initiatives to electrify remote areas present opportunities for.

The global solar inverter market size is estimated at USD 12.94 billion in 2025 and is predicted to reach around USD 25.81 billion by 2034, accelerating at a CAGR of 7.97% from 2025 to 2034. The Asia Pacific solar inverter market size surpassed USD 5.56 billion in 2025 and is expanding at a CAGR of. How big is the solar inverter market?

Solar Inverter Market Size was valued at USD 12.15 billion in 2021. The solar inverter market industry is projected to grow from USD 12.84 Billion in 2022 to USD 18.93 billion by 2030, exhibiting a compound annual growth rate (CAGR) of 5.70% during the forecast period (2022 - 2030).

How big is the solar PV inverter market in 2024?

By application, utility-scale installations accounted for 63% of the solar PV inverter market size in 2024, while residential is set to grow at a 7.6% CAGR through 2030. By phase, three-phase units led with 72% of the solar PV inverter market share in 2024; Single-phase is forecasted to post a 7.2% CAGR between 2025 and 2030.

How big is the global PV inverter market?

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration of renewable energy resources will fuel the adoption of efficient systems.

What is driving the global solar (PV) inverter market?

All of these aforementioned trends and factors are driving the growth of the global solar (PV) inverter market over the projected period. The central inverter segment dominated the market with share of 49.5% in 2021. The central solar (PV) inverter is widely applicable in industries.

What is the expected growth rate of solar inverter market?

The market is anticipated to grow at a CAGR of 5.3% over the forecast period. What is the projected market worth by 2035?

By 2035, the Solar Inverter market is expected to reach USD 21,645.9 million. Which segment is expected to dominate the market?

.

What is the value of PV inverter industry?

Based on the product, the industry is segmented into string, micro, and central categories. The PV inverter market was valued at USD 25.5 billion, USD 29.9 billion, and USD 34.6 billion in 2022, 2023, and 2024, respectively.
