Solar module battery prices

Overview

The average cost of a battery for solar panels ranges from \$5,000 to \$30,000. Most homeowners spend between \$6,000 and \$12,000. A fully-installed 12.5 kWh battery costs about \$13,000 after a 30% tax credit. Prices depend on the battery's size and the brand selected. How much do solar batteries cost?

The guide below shares the best solar batteries and installation fees, plus their long-term savings potential. Solar batteries cost an average of \$10,000–\$19,000 in addition to installation costs. You may need multiple batteries to power your whole house with solar batteries.

How much does it cost to install a solar battery in 2025?

The average cost to install a solar battery in 2025 is between \$9,000 and \$19,000, with the average homeowner paying around \$13,000 on average.

What types of solar batteries are used in residential solar panels?

There are three primary types of solar batteries used in residential solar panel systems. Lithium-Ion Batteries: This type of battery is the most prevalent in home solar systems because of its higher energy density or storage capacity. It is also what makes this battery the most expensive to install, on average.

Does a solar energy system pay off the cost of a battery?

Based on our 700+ hours researching the best solar companies, a solar energy system pays off the cost of adding a battery in 5–15 years. Added savings from federal tax credits, backup power during grid outages, and additional energy savings from stored power could help justify the cost of these systems.

Is solar battery storage worth the cost in 2025?

Whether solar battery storage is worth the cost in 2025 is totally up to you and your energy goals. If you experience frequent or long-lasting power outages, then having battery storage for backup power can be a game-

changer in keeping you safe, productive, and comfortable (not to mention keeping your food from spoiling!).

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.
