Solar module projects under construction in North Africa

Overview

Which solar projects are being developed in South Africa?

The following solar projects in South Africa are being developed: Total Mulilo's Du Plessis Dam Solar PV 1 project in De Aar, Northern Cape, and the Kentani, Klipfontein, Klipfontein 2, Leliehoek, Braklaagte, and Sonoblomo solar facilities in Dealesville, Free State, by the Ikamva Consortium of Mainstream, Globeleq and H1.

Which countries are pursuing large-scale solar storage projects?

Countries such as South Africa, Senegal, Malawi, Botswana, Tanzania, Namibia, and Mauritius are pursuing large-scale storage initiatives with a combined capacity exceeding 500 MW. Most of the new power in Africa came from large scale solar projects accounting for over 1780 MW, that is over 71 percent, of the total installation.

How many solar PV projects are being built in South Africa?

The SOLA Group, who have an extensive track record of building solar PV plants in Southern Africa, have already signed 15 MW of solar PV projects through the fund, including several breweries and other industrial facilities around South Africa.

Which countries are implementing a solar-plus-storage system?

The Kom Ombo Solar Plant in Egypt saw the commissioning of two large-scale projects totaling 700 MW, reinforcing Egypt's commitment to expanding its solar capacity. In Senegal, the Lolda Solar Farm added 60 MW of solar energy, coupled with 72 MWh of storage, signaling a move towards integrated solar-plus-storage solutions.

Why are C&I solar projects growing in Africa?

C&I solar projects continued to play a critical role in driving solar adoption across Africa. In 2024, the rolling pipeline for C&I projects grew by 15 per

cent, reflecting sustained demand from businesses seeking cost-effective and reliable energy solutions.

Which countries are accelerating solar adoption in Africa?

The Gambia and Djibouti made the most significant leap, rising 30 positions as new solar projects came online, illustrating the rapid advancements achievable with focused efforts. C&I solar projects continued to play a critical role in driving solar adoption across Africa.
