How much power does a 7kw Solar System produce?

In other words, a 7kW solar system can only produce 7kW of power if direct

sunlight is available. However, the amount of power that a solar system produces isn't what matters the most. What really matters is the average amount of energy (kWh) that the system generates on a daily or monthly basis.

What is a 7kw rating on a solar system?

A 7kW rating on a solar system means that the system is potentially capable of producing 7 kilowatts (7000 watts) of power at a given moment. But this amount of power production is not guaranteed and would require a certain amount of sunlight to happen.
