

SolarTech Power Solutions

Solar panels for power generation Solar panels customization

Overview

What is a custom solar panel design tool?

Because it can be difficult to explain all these options over the phone, in an email, or on a webpage, we developed a Custom Solar Panel Design Tool. Customers can use this tool to learn the basic anatomy of a solar panel, some of the customization options available, and create a custom solution that meets their needs.

What are the different types of custom solar panels?

Our custom solar panels mainly include three categories - mono/poly crystalline solar panels in latest technology, high efficiency Sunpower solar panels and indoor/outdoor amorphous silicon solar panels. [Learn more.](#)

How much does it cost to design a custom solar panel?

There are no design fees to create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending on the size of the panel.

How can customers learn about a solar panel?

Customers can use this tool to learn the basic anatomy of a solar panel, some of the customization options available, and create a custom solution that meets their needs. [Learn about our design process, starting from concept development, design proposal, prototyping, product launch, and ongoing engaged support.](#)

Should I start a solar project with small Solar panels?

Prototype your project with small solar panels before moving forward with custom designs. This allows you to confirm the efficiency of the circuit and power production estimates before investing in a custom design.

Can I create a custom panel mount?

In addition to customizing the embedded screws or adding through holes, we offer the ability to create a custom panel mount for your specifications. This includes the design and manufacture of custom brackets, gaskets or VHB seals. Our standard wire has strain relief is about 12 inches long and terminates in a 3.5x1.1mm plug.
