Solar panels in Vietnam

Overview

Who makes solar panels in Vietnam?

Sunergy Vietnam is a local solar panel manufacturer that offers high-quality photovoltaic modules. The company focuses on delivering efficient and sustainable solar solutions, contributing to Vietnam's renewable energy goals. Sunergy Vietnam's panels are widely adopted in residential and commercial projects throughout the country. 20. Luxen Solar:.

Why is the solar panel industry growing in Vietnam?

Vietnam's solar panel industry is experiencing unprecedented growth, driven by rising energy demands and the country's commitment to sustainable development. However, challenges such as supply chain disruptions, regulatory hurdles, and the need for advanced technology adoption still impede its full potential.

Does Vietnam have a solar panel market?

Vietnamese solar panel production capacity has grown from 2.5 GW in 2019 to an impressive 18.7 GW by 2024, representing a 648% increase in just five years. This remarkable growth has positioned Vietnam as the fourth-largest solar panel exporter globally, capturing approximately 12% of the worldwide market share.

How big is Vietnam's solar industry?

Export revenues from solar panels and component sales exceeded \$8.4 billion in 2024, making solar products Vietnam's eighth-largest export category. The sector employs over 185,000 workers directly, with an additional 340,000 jobs in supporting industries, creating a comprehensive ecosystem that supports sustained growth.

Is Vietnam a hub of solar innovation?

Vietnam's solar panel manufacturing industry has adopted advanced

technologies and innovative processes, positioning the country as a hub of solar innovation rather than just low-cost production.

How much do solar panels cost in Vietnam?

Solar panel costs in Vietnam have declined steadily, following global trends while maintaining competitive advantages. Average pricing for high-quality monocrystalline panels decreased from \$0.34 per watt in 2022 to \$0.28 per watt in 2024, with further reductions anticipated as production scales increase.
