Solar power generation and energy storage applications in the Vatican

Overview

Where are solar panels located in Rome?

Sometimes the solar arrays are situated on top of greenhouses, interwoven among crops, or elevated plants. Where is the Vatican's solar installation located?

The agrivoltaic plant is situated on the Holy See's property at Santa Maria di Galeria on the outskirts of Rome.

What is agrivoltaics & how does it work?

Agrivoltaics involves the dual use of land for solar energy production and agriculture.

Why is solar energy important?

As the Holy Father explains in the new Apostolic Letter Fratello Sole ("Brother Sun"), "Mankind has the technological means to deal with this environmental transformation and its pernicious ethical, social, economic and political consequences; and among these, solar energy plays a key role."
