South African New Energy Storage Company

Overview

Who is supplying battery energy storage systems in South Africa?

Source: Eskom. A Chinese green technology company has been contracted to supply battery energy storage systems (BESS) for the Oasis 1 cluster of projects in South Africa. Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage.

Is Envision Energy the largest energy storage system supplier in South Africa?

Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage. The company claims this marks the largest BESS order in South Africa and positions it as the first energy storage system supplier in the region to secure a GWh-scale order.

Why is energy storage important in South Africa?

Experts say that widespread energy storage is vital to expanding the reach of renewables and speeding the transition to a carbon-free power grid — this is key to helping reduce South Africa's reliance on fossil fuels as it seeks to transition to clean energy.
