

SolarTech Power Solutions

Southern European Wind Power Energy Storage Company

Overview

What is the EU wind power package?

To accelerate wind energy manufacturing across Europe, the Commission presented the EU Wind Power Package in October 2023. It consists of 2 initiatives - the European Wind Power Action Plan and a communication on achieving the EU's offshore wind ambitions.

Who are the most important European wind energy operations & maintenance companies?

Get access to our list of the most important European wind energy operations & maintenance companies (like ABO Energy AG, Fred. Olsen Windcarrier AS etc.) as an Excel file. The list includes further information (like executives' names, contact details, etc.).

How has the EU helped develop wind power?

The EU has helped develop wind power thanks to its ambitious policies and investments. European companies have invaluable experience by being 'first movers'. The first offshore wind farm was installed in Denmark in 1991.

How does the wind industry contribute to the EU economy?

The wind sector is also a significant contributor to the EU economy, boosting growth and creating long-term sustainable jobs. According to Wind Europe's competitiveness report 2023, the wind industry provided around 300 000 jobs in the EU in 2022. Under the REPowerEU targets, the number of jobs is estimated to grow to 936 000 by 2030.
