

SolarTech Power Solutions

Spanish EMS Energy Storage Solution

Overview

What is Spain's energy storage program?

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a €700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5–3.5 GW of capacity.

How has Spain strengthened its energy infrastructure?

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a €700 million support scheme aimed at expanding large-scale energy storage across the country.

What is the electro-chemical battery storage project?

The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2021 and will be commissioned in 2024. The project is owned and developed by Soto Solar.
