

SolarTech Power Solutions

Stationary energy storage lithium battery energy storage cabinet manufacturer

Overview

Who is lithium storage?

As a professional lithium ion battery manufacturer in China, LITHIUM STORAGE designs, manufactures and sells advanced lithium-ion power Battery Solutions for Electrical mobilities and Energy Storage equipment.

Are lithium ion batteries a good energy storage system?

Lithium-ion batteries are the most favourable electrochemical energy storage system for electric vehicles and energy storage systems due to their high energy density, excellent self-discharging rate, high operation voltage, long cycle life, and no memory effect.

Why should you choose lithium storage?

The innovative and professional R&D and operation team with more than 10 years of projects and industrial experience gives LITHIUM STORAGE competitive advantages in quality stability, rapid response, and professional solutions. The global economy is experiencing a transition from carbon-intensive energy resources to low-carbon energy resources.

How many modes does the energy storage BMS solution support?

The energy storage BMS solution supports two modes: a three-level architecture (BMU sub-control module + BCU main control module + BSU master control module). The ECO-PCS series product is a modular converter designed specifically for small-sized energy storage systems.

What are the certifications of our lithium-ion battery factory?

Our lithium-ion battery factory has successively passed the authoritative quality management system certification such as ISO9001, IATF16949, ISO14001, and ISO45001, and our products have also received international certifications such as MSDS, UN38.3, UL, IEC62619, JET, and BIS.

Why should you choose Huijue battery-powered storage?

Huijue's lithium battery-powered storage offers top performance. Suitable for grids, commercial, & industrial use, our systems integrate seamlessly & optimize renewables. High-density, long-life, & smartly managed, they boost grid stability, energy efficiency, & reduce fossil fuel reliance.
