

## SolarTech Power Solutions

# Ukrainian integrated solar power supply system

## Overview

---

In 2019, changes were announced to the Ukrainian energy market operations that have significant impacts on the growth and operation of large scale solar facilities in Ukraine. These include a new generous feed-in-tariff scheme and the requirement for solar energy facilities to provide their own energy generation forecasts. The head of the Ukrainian Association of Renewable Energy, writing in 2024, said that solar far.

In partnership with USAID, the U.S. Department of Energy's National Renewable Energy Laboratory (NREL) is supporting deployment of renewable-generation-based microgrids that will enable Ukraine to increase its energy independence and resilience by integrating more renewables into its energy mix.
