

SolarTech Power Solutions

Vaduz solar water pump inverter manufacturer

Overview

What is a solar pump inverter?

A solar pump inverter, also known as a solar variable frequency drive (VFD), helps in converting the direct current of a solar panel into an alternating current. It drives various AC motor water pumps like a centrifugal pump, irrigation pump, swimming pool pump, and deep well water pump.

What is veichi solar water pump inverter?

- Constant pressure water supply solution. VEICHI solar water pump inverter is a high-efficiency solar water pump controller which can make full use of solar energy to drive water pumps for agricultural irrigation, water supply system, fountains, groundwater lowering and etc.
- Ingenious design -- small and exquisite inverter modules;

Can solar pumping inverters provide clean water in Honduras?

The project uses solar pumping inverters to achieve a daily water supply of 40 cubic meters, meeting customer demand. In April 2025, Solartech in collaboration with our Honduras EPC project partner, successfully implemented a 2200W solar water supply system for a local village, bringing sustainable clean water to the community.

What is a VFD & a solar pump controller?

Our VFDs and solar pump controllers feature cutting-edge MPPT algorithms and high-efficiency motor control, reducing energy consumption and operational costs. Tailored for industrial automation, solar water pumping, and smart water management, our products ensure reliable performance in diverse environments.

What type of power supply does a solar pump inverter use?

The input can be a solar DC power supply (160-450VDC, 350-800VDC), also single-phase solar pump inverter, or a three-phase AC power supply (220V,

380V, 400V, 460V, 480V), built-in MPPT control system to increase the output power of PV array, ideal for remote and dry areas.

Are Kuvo solar water pump inverters IP54 rated?

KUVO's IP54-rated drives have performed flawlessly, improving motor efficiency and reducing downtime. Excellent product and support!" "We installed KUVO's solar water pump inverters for our irrigation system in Kenya, and the results have been amazing!
