

SolarTech Power Solutions

**We have 12v to 72v inverters
for self-operation**

Overview

Can a 12V 72V inverter be converted to each other?

A1: No, 12V~72V cannot be converted to each other. You can only choose one of the input voltages, and the inverter input voltage must be consistent with the system input voltage. For example: a 72V inverter can only be used for a 72V battery. Q2: How to select the output voltage:.

What is a car inverter converter?

□Anti-interference Pure Sine Wave Inverter□The car inverter converter adopts pure sine wave technology, which has low interference, low noise and large load capacity, it is a voltage converter that converts 12V / 24V / 48V / 60V / 72V DC into 110V/120V/220V/230V/240V AC. It can be used in emergencies, camping, cars, homes, RVs and solar energy.

Do I need to select the output voltage for my inverter?

A2: The output voltage is the US standard voltage 110V~120V (default). You do not need to select the output voltage, only select the input voltage. Of course, if you need an inverter with an output voltage of 220V, please let us know by email.

How do I use a 12V battery system?

Simply plug in the 12V/24V/48V/60V/72V battery system to power the device at home or outdoors to deal with emergencies, hurricanes, storms and power outages, suitable for RV, boating, camping work.

Are 3 phase inverters reliable?

These rugged inverters are extremely reliable, designed to provide many years of service in high shock, vibration, humidity, and EMI environments. Combining 3 inverters to form a 3 phase power system is optional. In this configuration, a 3 phase and neutral line is generated with precise synchronization.

What applications can a pure sinewave DC-AC inverter be customized for?

Utilizing field proven technology, this family of Pure Sinewave DC-AC inverters can be customized for unique applications including: Applications Compliance (by test or similarity) (1) May require additional external module. (2) May require external EMI Filter. (3) Requires external shock absorbers.

We have 12v to 72v inverters for self-operation
