## Overview

---

In the , Belarus became a staging ground for Russian forces preparing to invade Ukraine. The , , , and of the , the 76th Guards Air Assault Division, the 98th Guards Airborne Division, and the Pacific Fleet's were all deployed to Belarus, alongside the headqua.

Entirely new military bases and airfields have appeared in Belarus, and existing ones are being modernized.

Entirely new military bases and airfields have appeared in Belarus, and existing ones are being modernized.

After Russia launched its full-scale invasion of Ukraine, Belarus began actively expanding its military infrastructure. Entirely new military bases and airfields have appeared in Belarus, and existing ones are being modernized. Using satellite imagery, RFE/RL's Belarus Service shows how the.

The Russian military's presence in Belarus has increased greatly in size from its original deployments since the dissolution of the Soviet Union. The Russian military has been accused of assisting in the crackdown on the 2020–2021 Belarusian protests by supplying weapons and equipment to the.

Ever since Belarus' leadership announced in March 2023 it was to take possession of Russian short-range nuclear weapons, speculation has grown as to where they're stored. The image that gave the game away - The presence of a digital radiation monitor on a military base in Belarus. Photo: Open.

New satellite images show that the construction of a double-fenced security perimeter is underway at a weapons depot near the town of Asipovichy in central Belarus. The US Central Intelligence Agency reported in late-February 2023 that a senior officer from the Russian Ministry of Defense had.

On Saturday, Russian President Vladimir Putin announced plans to station Russian nuclear weapons on the soil of its neighbor and ally, Belarus. This decision, like Russia's aggressive rhetoric more broadly, raises the risk of nuclear conflict over the war in Ukraine. Unfortunately, the US and its.

Russia moving tactical nuclear weapons into Belarus is an escalation, but one

that exposes Russian President Vladimir Putin 's nuclear threats to be "hollow," experts have told Newsweek. Allusions and direct threats of nuclear weapons use have defined the course of the Ukraine war since the start. Why is Russia basing nuclear warheads in Belarus?

By basing some in Belarus, the Kremlin appears to be trying to accentuate its nuclear threat and bolster its nuclear deterrent. Russia already has nuclear warheads on its own soil that are close to Ukraine and NATO countries.

Are new military bases and airfields being modernized in Belarus?

Entirely new military bases and airfields have appeared in Belarus, and existing ones are being modernized. Using satellite imagery, RFE/RL's Belarus Service shows how the country's military sites have changed ahead of this year's Zapad-2025 exercises with Russia -- the first time the joint drills are being conducted since the invasion.

Is a digital monitor measuring radiation on a military base in Belarus?

A detail from the background of a photo on a military base in Belarus shows a digital monitor that is measuring radiation. A seemingly innocuous photo posted online in September 2024 is a small piece in a larger mosaic of evidence uncovered by RFE/RL's Belarus Service of a secret Russian nuclear weapons base in the Eastern European country.

Which military units were deployed to Belarus?

The 5th, 29th, 35th, and 36th Combined Arms Armies of the Eastern Military District, the 76th Guards Air Assault Division, the 98th Guards Airborne Division, and the Pacific Fleet's 155th Separate Marine Brigade were all deployed to Belarus, alongside the headquarters of the Eastern Military District.
