What brand of outdoor power supply should I use

Overview

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Which power station should I buy?

The Jackery 2000 Plus is the best power station for those who need ample power. While it is pricey at over \$2,000 list price, it has plenty of power, charges impressively fast, and won't let you down in case of an emergency. If your main need is charging devices like phones and laptops, our favorite is the Anker 521.

Is it a good time to buy a portable power station?

With prices dropping, it's a great time to think about investing in one of the best portable power stations. I was impressed by the options in my test, and would recommend any of them to first-time power station purchasers.

What spec should you consider when buying a power station?

Whatever the reason you are purchasing a power station, the most important spec to pay attention to is watt hours, which is a measurement of how much energy the power station can hold. While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story.
