What equipment does a solar panel have

Overview

To go solar, you'll need solar panels, inverters, racking equipment, and performance monitoring equipment--at a minimum. Depending on where you live, you may also consider a solar battery. The components of a solar panel system are pretty simple.

When is choosing the right equipment most important?

To go solar, you'll need solar panels, inverters, racking equipment, and performance monitoring equipment--at a minimum. Depending on where you live, you may also consider a solar battery. The components of a solar panel system are pretty simple.

There are three main types of residential solar panel installations: grid-tied, hybrid, and off-grid. Grid-tied systems are the most common and the cheapest because they use the least amount of equipment: solar panels, wiring, racking, grid-tied inverters, and a net meter. Hybrid solar systems use.
