What is the outdoor power supply number in Mexico

Overview

Mexico uses outlet types A, B at a voltage of 127V and a frequency of 60 Hz. Plug Compatibility: Type A, Type B Voltage: 127V Frequency: 60 Hz What type of power plugs are used in Mexico?

In Mexico, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 127 V at a frequency of 60 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Do Mexico's power plugs match US plugs?

Yes, Mexico's power plugs do match those used in the US. Both countries utilize Type A and Type B plugs. The similarity in plug types between Mexico and the US allows travelers to use their devices without the need for adapters. The electrical standards in both countries are also aligned, with a voltage of 120 volts and a frequency of 60 hertz.

Do I need a travel power plug adapter for Mexico?

Since Mexico uses the same power plugs as the U.S., Canada and most of North America, a travel power plug adapter isn't necessary for those travelers. If you don't have Type A or B plugs (top photo), you will need this travel plug adapter for Mexico.

What type of power socket is used in Mexico?

The power sockets in Mexico are of type A and B. The standard voltage is 127 V at a frequency of 60 Hz. Check your need for a power plug (travel) adapter in Mexico.

What type of power outlet do they use in Mexico?

See our product selection criteria and guidelines here. Which power outlets do they use in Mexico?

Mexico is associated with 2 types of plugs, Type A and Type B. (Type A) has two vertically parallel, rectangular pins; (Type B) has the same flat pins with an additional round grounding pin.

Do device plugs work in Mexico?

Most device plugs will work with the outlet types in Mexico. Also, the voltage in Mexico is the same as in the United States and Canada. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet. For this reason, we always recommend traveling with a universal travel adapter.
