Where is the Dominica Energy Storage Power Station

Overview

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond Colé area, is nearing completion. Installation is already finished, and final testing is underway from 30 April to 4 May 2025.

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond Colé area, is nearing completion. Installation is already finished, and final testing is underway from 30 April to 4 May 2025.

Illustration of a sustainable energy concept in Dominica Dominica is taking a pragmatic step towards energy security and sustainable development, aligning with the global shift towards decarbonisation and infrastructure modernisation. The commissioning of a 6 MW / 6 MWh Battery Energy Storage.

In 2025, the Independent Regulatory Commission (IRC) will conduct site visits to assess various electricity generation projects, as part of its mandate to ensure a reliable and adequate electricity supply. The goal of these projects is to build generation capacity to meet the increasing demand for.

The Caribbean island of Dominica depends on generators fueled by dirty energy to power the needs of its 66,000 residents and a booming tourism sector. But that's about to change. Dominica is going all-in on clean energy, constructing a 10-megawatt geothermal power plant near the village of Laudat.

From Wednesday 30th April to Sunday 4th May 2025, Dominica Electricity Services Ltd. (DOMLEC) will be conducting critical testing of a recently installed Battery Energy Storage System (BESS) at its Fond Colé Power Plant, as the company enters the final stages of commissioning this battery system.

Dominica is making waves in the renewable energy sector with its ambitious large-scale energy storage initiatives. This article explores how cutting-edge energy storage solutions are transforming the island nation's power

infrastructure, reducing reliance on fossil fuels, and paving the way for a.
