System

Overview

Does Orange Romania have 5G & 5G+?

Orange Romania has expanded and improved its 5G/5G+ services in 6 new cities in recent months, most recently Ploiești, Deva, Targoviste, Calarasi, Giurgiu, plus coverage extension in Cluj-Napoca. This new network advancement comes as further confirmation of the renewal of the fastest mobile network certification in Romania.

How effective is 5G & 5G+ in Romania?

The effectiveness of plans to expand 5G/5G+ services is also confirmed by the latest tests: Orange was again recognized as the #1 network in Romania for mobile internet and voice services. Independent external auditor LCC International has renewed the certification as the best mobile network at the end of 2024.

Does Romania use Chinese technology in 5G networks?

In September 2019, the former US Ambassador to the European Union praised Romania for not using Chinese technology in its 5G networks. In January 2020, the US Embassy in Romania issued a statement emphasizing that companies connected to an authoritarian government like China could not be trusted.

How many cities are covered by 5G & 5G+?

At the moment, 5G/5G+ services can be accessed in 50 cities, with eight new cities added in the last six months. Also, in December 2024-January 2025, coverage in Cluj-Napoca reached 100%, including the surrounding localities.

Where is 5G available?

Currently, the 5G network is primarily available in major cities, however, efforts are being made to expand coverage to other areas as well. It is expected that operators are already working on providing the 5G network to stadiums, airports, and other special premises. 5. What public tenders have

awarded spectrum licences?

.

Who has the largest 5G spectrum portfolio in Romania?

By the end of 2024, Orange had made the largest investment in 5G spectrum in Romania: around €265 million. After acquiring the 25-year licenses in 2022, it became the operator with the largest spectrum portfolio, taking on the most obligations to cover the national territory.
